HERTLING WILL NOT DISCUSS RUSS TERMS

Wrong When He Says Allies Do Not Want to Finish What He Calls Terrible War

"PASSING THE BUCK" AGAIN

Copenhagen, March 19—Chancellor Hertling, addressing the German Reichstag, declared he did not wish to discuss the enemys opinion regarding the Russian peace treaty, according to dispatches received here today. The Chancellor said the treaty did not contain terms disgraceful to the Russians, and that some provisions were reported waiting the Russians in accordance with their own wishes. If the Reichstag adopts the treaty of peace the whole east front will be restored Hertling said, but among the entente allies there is not the least inclination to finish the terrible war. The resonsibility for continuing the bloodshed will be on the hands of those wishing to continue it. Hertling's declaration was received with loud cheers except from the members of the extreme left

MAINTAINING ARMY STUPENDOUS TASK

Chicago, March 14—To maintain the American army in France 100 pounds of gross tonnage a day must be landed at French ports for each man, according to Captain Earl J. Zimmerman, executive officer in the depot quartermaster's department here.

"The American people have no conception of the quantity of supplies needed for the men 'over there'," said Captain Zimmerman, "nor of the difficulty in getitng it to them. For example, it takes 23,000,000 pounds of frozen beef each month to feed a million soldiers."

In explaining the food supply of the American soldiers abroad and the manner in which it must be sent, Captain Zimmerman gave a general picture of the difficulties of the quarter masters corps in constantly maintaining a sufficient quantity of food.

According to his statement the men in France are on a "garrison ration," the same as soldiers at cantonments in this country. This ration is five pounds a man, each day. This weight, however includes eating utensils and container. For a million men 150,000,000 pounds of rations a month are required, amounting to 4,000 carloads.

A list of the food required for a million men for 30 days would include the following:

23,000,000 pounds of frozen beef.
37,500,000 pounds of flour.
6,000,000 pounds of bacon.
2,000,000 cans of beef.
1,000,000 cans corned beef.
1,000,000 cans corned beef hash.
3,000,000 pounds of sugar.
2,400,000 pounds of coffee.
973,000 pounds of butter.

At all times, Captain Zimemrman said a 30 day supply is maintained in France.

BRADFORD NEWSPAPER MAN HERE

C. H. Miller who has been connected with Bradford Star-Record for more than nine years has been spending a few days in this city.

During his stay he has been looking after the interests of John Richelson of Bradford who has shied his castor into the political arena of the twenty-first congressional district, consisting of Centre, Cameron, McKean and Clearfield counties.

Mr. Miller before leaving the city told The Progress man that he would spend some time in this vicinity as Mr. Richelson intends to make a strenuous effort to place his name before every voter in the district before the coming primaries in May.

MOOSE HERD HEARS PATRIOTIC SPEECHES

The open patriotic meeting held in the Globe theatre Sunday afternoon under the auspices of the Loyal Order of Moose was a largely attended and most enpoyable patriotic occasion.

The committee under the competent direction of D. D. Guppy as chairman prepared a most entertaining program which was carried through without a hitch.

Mr. Guppy presided at the meeting and following the invocation by Rev. Joseph John and the singing of "America" by the audience, introduced W. I. Swoope, Esq., as the first speaker of the afternoon. Mr. Swoope's ability as an orator is too well known to need any encomium at our hands. He is particularly at home with a patriotic subject and did himself proud on this occsion.

A solo by Miss Dorothy Woodwad was the next number on the program and was a distinctly pleasing feature. Miss Woodward possesses a sweetly pleasing voice and her rendering of "Lest we Forget" brought forth a storm of appreciative applause.

Chairman Guppy then introduced Rev. Dr. E. C. Reeve. Dr. Reeve is a finished orator and his address was both highly entertaining and convincingly instructive. Dr. Reeve presented many patriotic thoughts whose common sense barbs caused them to stick in the minds of his hearers and they should be productive of great good in the future.

The charming duet by Mrs. Mack Gallaher and Robert Kennard, which followed Rev. Reeve's talk was fully in keeping with the high class of the program throughout. Mrs. Gallaher and Mr. Kennard are among Clearfield's most talented vocaists and added anew to their laurels by their admirable singing on this occasion.

Hon. Joseph E. Philips then briefly outlined the duties of a patriotic American relative to financing the war savings income tax, etc., and his remarks made a deep impression upon his hearers.

The audience then joined in singing "The Star Spangled Banner" and following benediction by Rev. John, filed out on their ways to their several homes, well pleased with their patriotic pilgrimage and better Americans for what they heard and witnessed.

It was a highly successful occasion and the committee in charge is deserving of commendation for the beauty of the decorations about the stage and the excellence of the program furnished. A capacity audience was present.

PATTON MISS GETS DIVORCE WHILE GOING TO SCHOOL

Detroit, March 19.—"Please, teacher may I go down town this morning and get a divorce?"

Anna Stillman, aged 16 years, made this request of her teacher in a Detroit public school this morning. She was excused. Three years ago in Patton, Pa., Anna's father called her from school one day, introduced her to James Stillman, aged 27 years, who told her to hold his hands, then the Justice of the Peace read something out of a book, and then she was told she was Stillman's wife. Her father had been forced to sign a marriage agreement when he was temporarily blinded and Anna obtained her divorce.

REJECTED ON PHYSICAL GROUNDS

Mike Witchura, of Ramey, and Mike Rinage, of Morrisdale, who were sent to Camp Lee with the last contingent from Clearfield, have been rejected for physical reasons and sent back home.

Port Rupe, of Hawk Run, who recently enlisted and was sent to Camp Green at Charlotte, N. C., was also rejected on account of his eyes.

Second Lieutenant George A. Dale, a Clearfield boy, was dicnarged from the 112th Regiment at Camp Hancock Augusta, Georgia, on Monday last. Lieut. Dale, who visited his father, A. M. Dale, several weeks ago, suffered a severe attack of ptomaine poisoning at Camp Hancock several months ago which left him in such condition that the army authorities were forced to discharge him from the service.

Lieut. Dale went up from the ranks to a second lieutenancy and his host of local friends sympathize with him in his misfortune.

THREE COLORED WOODLAND MEN HAVE SMALLPOX

One of the Harbison-Walker boarding houses at Woodland was quarantined for smallpox yesterday afternoon, three cases of the loathsome disease having been discovered among the sixteen inmates.

The victims are Kid Lee, Will Armstrong and Thomas Williams. The latter fellow is one of the men selected for military service from District No. 1 of Clearfield county. He was called for examination last Monday and examined by the late Dr. Samuel C. Stewart. Williams had a high fever and complained of feeling badly at the time of his examination and took his bed the following Tuesday. Dr. Shivery was called and while the symptoms inclined toward smallpox, they were not sufficiently pronounced to warrant the doctor in calling it that. However the tell-tale eruptions appeared on Thursday and then Dr. Paul Frantz, of Clearfield, Deputy County Medical advisor, was called in. The two physicians made a careful diagnosis and finally were able yesterday to pronounce the disease small pox.

By that time Lee and Armstrong were both stricken and while a close quarantine was immediately enforced grave fears of a wide spread of the disease are entertained.

County Health Inspector M. L. McQuown was promptly on the job and is in charge of the enforcement of the quarantine. Guards will be employed and every effort made to prevent the disease from spreading.

Meanwhile a wholesale vacination campaign has been started in Woodland.

FARMERS SEED CORN IS BEING TESTED

A seed corn exhibit or test is being conducted in the old Clearfield National Bank building on Second street under the direction of the County Farm bureau as a part of the plan to supply Clearfield county farmers with suitable seed for the coming summer's planting.

The test is in charge of R. E. Weisgerber, brother of County Superintendent C. A. Weisgerber, and a graduate of the agricultural department of Pennsylvania State College.

Two kinds of corn, the crib and ensilage, will be used in the test and the proceeding, while unique to the uninitiated is advantageous and satisfying. Mr. Weisgerber has fitted up a number of trays for what is known as the "sand test." Each shelf in these trays is covered with muslin marked and squared and five grains of corn from each ear in the test is located on one of these numbered squares, the ear from which the grains have been secured bearing the same number is retained on a convenient shelf to avoid error in determining which particular ear the corn is from. The grains are covered with sand which is dampened and the room kept at a temperature which will cuase the corn to germinate in from five to seven days. Each tray will hold from twelve to fourteen bushels at each test and in this way every ear of the several hundred bushels of seed ordered by Clearfield county farmers will be given a thorough test.

The test requires that 80 per cent. of the grains from each ear must properly germinate or the ear is rejected for seed. When an ear meets the requirement the small or imperfect grains at each end of the ear is removed and the balance thrown into the sheller and the shelled corn then placed in the seed boxes; and it is from this scientifically determined healthy seed that our farmers will be served.

Following the development or test of the seed the filling of the orders will take place.

As we said before there are orders already on hands for several hundred bushels and while it was intended to cease taking orders on March 20th, the time has been extended for a few days, in order that all our farmers may take advantage of this oportunity to secure first class seed. Orders will be filled for both crib and ensilage corn in the order of their receipt.

Rev. J. E. Gearhart will lead prayer meeting at Trinity Methodist church Wednesday evening in the absence of Rev. Hartman who is attending conference.

SHAPLAN'S CABLE

By Joseph Shaplen
Copyrighted by United Press 1918

Petrograd, March 18—Russian officials including former Bolsheviki and Soviet revolutionary commissariats who opposed the ratification of the Brest-Litovsk peace terms are organizing resistance against the Germans Fifty dissenting Bolsheviki have adopted a minority report to the Pan-Soviet peace ratification. All Russian officials today announce they had agreed to German cooperation in regard to the whole country. They said the "cooperation" leads only to Petrograd where a small commission of Germans are expecting to have great power. Twelve Romanoffs of which the former Czar is a member has been exiled to the remote interior, following a hearing of charges of suspicious "anti-Revolutionism." All were disinterested regarding their fate and "broke" including the Grand Duke Nicholas, the historian.

Petrograd, March 18.—German forces have occupied Konotop, Arosshba and Bachmatsch. Saxon troops are reported continuing toward Kursk and Kharkoff. The local Soviet is evacuating Kharkoff. The German movement is regarded as a "covering" campaign for Ukrania. The Russian retreat from Odessa was ordered. The Black Sea fleet refused to fire bombs at the city after German occupation because it was loath to destroy it. The city is awaiting the arrival of the Soviet revolutionists to ratify the peace treaty and who are now en route to Moscow.

LOCK HAVEN ARMY DESERTER COMMITS SUICIDE IN WEST

By United Press

Muskogee, Michigan, March 19—Sergeant Carl D. Smith, a deserter from Camp Custer, committeed suicide here today in front of his sweetheart's home, after the girl, Katherine Schabler, a German, turned him down. Papers found in his pocket showed that his real name was Elvin R. Wier. A code letter found in his belongings eld the coroner and police to believe he was a German spy. He shot himself through the heart. Smith left Camp Custer January 7. His father lives in Lock Haven, Pa., and two sisters live at Caldwell, Pa., according to papers he left.

NEW COMMISSION WILL FIX PRICES ON WAR NEEDS

(By United Press)

Washington, March 19.—Creation of a price fixing committee under authority of the War Industry Board was announced today. The committee will be composed of R. S. Brookings, of the War Industry Board, as chairman, Brigadier General P. E. Pierce, General of Supplies for the War Department, Paymaster John Hancock, of the Navy Bureau of supplies, Dr. H. A. Garfield, Fuel Administrator, F. W. Taussig, Chairman of the United States Tariff Commission, W. J. Harris, Chairman of the Federal Trade Commission, Hugh Frayne of the War Industry Board and Bernard Baruch, Chairman of the War Industry Board. Another civilian member will be named later.

The committee will pass upon prices for all basic raw material and establish a price fixing policy to be submitted to the President for approval. Its power will be purely advisory and recommendatory. Legislation pending before Congress it was thought possible, however, may be advocated later to give force to full administrative decision. The price fixing committee will act upon industrial production and distribution. It will sit continuously.

FRANCIS AT VOLGODI

(By United Press)

Washington, March 19—Ambassador Francis was still at Volgodi on Sunday, State Department cables declared today. Butler Wright, embassy attache, had started for Harbin but Francis gave no intimation of the movements of himself.

Progress Want Ads pay.

INDUSTRIAL HOME SHOULD BE BUILT IN THIS COUNTY

The matter of the selection of a site for the location of the proposed district workhouse and industrial farm for the district of which Clearfield county is a part was discussed at a meeting of the Mine Trustees representing the different counties of the district at a meeting held in rensburg on March 11th last.

Our county was represented by County Commissioner H. H. Spencer who was recently appointed for the purpose by Judge Bell, under the terms of the law providing for such departure.

At the preliminary meeting the question of operation under the law was generally discussed and while some of the Trustees rather favored delaying the building of the institution until after the war, a majority expressed themselves in favor of carrying out the provisions of the Act of Assembly as soon as it could be done.

A fund of $1,000 was created for the purpose of financing the investigation of proposed sites, etc., and it was decided to recommend a site according to the law's provisions of not more than 500 acres, same to be located accessible to the railroads, with good water and drainage, suitable for farming, fruit and stock raising, and adjacent to material that could be used for road building purposes.

The latter provision makes Clearfield county the logical place for the location of the new institution and a determined effort should be made to have same located within our borders.

The trustee in each county has been directed to look up proposed sites in his county. Therefore, any person having a desirable location which will fill the requirements enumerated should communicate with Commissioner Spencer on the matter. If you have a site which you would sell or wish considered make your proposition in writing to Mr. Spencer at once in order that he may have time to investigate same and be in position to report at the next meeting of the trustes wheich is scheduled for Washington, Pa., on April 17th.

This is an important matter and there is no reason why Clearfield county should not be considered in the location of this institution, which will mean much additional business to the community near which it is located. If you have a site you wish considered notify Mr. Spencer at once.

SERVICE FOR PRAYER AND MEDITATION

Help win the war by prayer.

At the Presbyterian church, for an indefinite period, every afternoon at five o'clock, continuing for fifteen minutes, the organ will be played, and prayer will be offered. Let us as a nation, as individuals seek the presence and communion of the Lord. Everyone is cordially invited to come in and spend a few minutes in prayer and meditation. Pray for yourself, your nation, your own soldiers. Wait upon the Lord in prayer. The church will be open at all hours for prayer and meditation. It is the House of God. It invites you to come. Strangers are always welcome. "More things are wrought by prayer than this world dreams of."

WILSON SIGNS BILL SAVING DAYLIGHT

By United Press

Washington, March 19—The daylight saving bill which goes into effect at 2 a. m March 31, and which sets the clocks of the country one hour ahead was signed by President Wilson today thus making it a law.

PLANS FOR O. U. A. M. BUILDING UNDERWAY

John S. Chaplin the West Side architect is at work on the plans for the new building for Clearfield Council Council O. U. A. M. propose erecting on the site of their building destroyed by fire several months ago.

The new building which will be considerably larger than the old one will be 50x115 feet, built of tapestry brick, trimmed in concrete, two stories high.

The ground floor will contain store rooms with lodge rooms on the second floor.

The new building will be one of the handsomest in Clearfield when completed and work will be commenced on same at once.

TODAY'S REPORT FROM U. S. FRONT

By United Press
By Fred S. Ferguson

With the American Army in France March 18— Franco-American forces again raided German trenches in the Badonvillers region today penetrating 300 yards into the enemy lines at two points. They found the positions evacuated and were forced to return without prisoners. The raid was launched from an abandoned German trench. There was unusual heavy artillerying at other points held by the Americans today.

In the Soissons region on the Lady's Highway 6,000 German shells, mostly gas, were dropped on the Franco-American lines. French and New England gasers repiled to the German fire with bombs four times as heavy as those received.

In response to Secretory McAdoo's request, machine guns, flame throwers and trench knives captured on the Toul front will be sent to America for exhibition in the Third Liberty Loan campaign.

By United Press

London, March 19—English troops successfully raided three enemy positions last night, bringing back a number of prisoners, Field Marshal Haig reported today. Portugese troops continued a raid east of Neuve Chapelle taking prisoners and two machine guns. Three attempted enemy raids were repulsed with considerable losses inflicted on the raiders last night. Hostile artillery occurred in the Ypres sector.

BAKER PLEASED WITH VISIT TO GEN. PERSHING

Encouraged By Witnessing Great Work Of Army In Preparation For Impending Struggle

AMERICAN HEARTS IN FRANCE

By W. S. Forrest

With Secretary of War Baker in France, March 17.—"My visit to France has brought me a great uplift in spirit," Secretary Baker declared today in talking to the staff officers of the staff college here.

"As a boy who dissects a watch in order to see the works I have been taking this army apart. While we are busy at home with our industrial preparedness and training of troops our hearts have been transplanted here in France."

Before motoring to the staff college which is located in an ancient city, Baker and General Pershing began at 7:30 a. m., an inspection of a vast warehouse area near the actual fighting line. Baker warmly lauded the work of the college and impressed on his audience the real seriousness of America's great war project.

24 MOSSBACKS IN OSCEOLA

The election for increase of debt held at Osceola Monday resulted in a vote of 233 to 24 in favor of a bond issue of $10,000 for the purpose of purchasing a triple combination motor driven fire engine and the installation of an electric fire alarm.

Osceola suffered three very serious fires during the last three months of 1917, due almost entirely to lack of efficient fire fighting apparatus.

Following the last fire the council purchased a supply of hose and contracted for a latest style fire engine contingent on the voters ratifying such contract at the polls at the special election called for that purpose. Monday's vote was very satisfying both to the council and fire department.

Cincinnati's most successful druggist is a woman who owns and manages a chain of downtown drug stores in the Queen City.

VIEW OF WORLD WAR HELD BY LATE REV. J. E. CURZON, RECEIVED AFTER HIS DEATH

We print herewith an extract from a letter received by John F. Leitzinger, on January 21st last. The letter with written by the late Rev. J. E. Curzon, a brother in law of Mr. Leitzinger. The letter was written Jan. 15th at Fort Smith, Arkansas, and received in Clearfield, January 21st just two days after Rev. Curzon's sudden death at Fort Smith:

The extract follows:

"My Pap dun kotched a wolf w'elp, an brung him home to me. 'Twas the pertest, cutest, little cuss I sca'sely ever see. But Ma, she did'ent like him an' made me chain him up; an' 'lowed she had no confidence in any wolfish pup. He was cunnin' as a bug's ear, an' grew like Johnson grass. Got tamer than a Collie, an' was full uv pep and sass. One night he slipped his collar an' killed our biggest shote; an' then he swum across the crick an chawed Bill Jones'es goat. Pap was a goin' to kill him, but I dun pled his cause; fur he looked so awful sad-like with his nose between his paws. It took a heep uv talkin', fur Pap was powerful mad; but I did'ent think the pore cuss knowd what he'd dun was bad. He was as good fur several days as as any wolf could be; we wus a pair uv komrads, that young wolf w'elp an' me: but when he heered his kin folks a howlin' on the hill, a devil seemed to get in him an' make him long to kill. Pap went down to Van Buren to spend the night from home; an' on that selfsame very night the wolf begun to roam. We heered an awful blattin' down to the old sheep fold; an' me an Sam, (my brother) made like as we wus bold; an' tole Ma, an our sister, to keep the door within, while we went out into the dark to learn what made the din. Did yo' evah hev' the cold chills fussin' with yo'r back bone? Did yo' evah heer an owl hoot when in the night alone? If yo' did, yo'll know the feelin' what came to me an Sam when we seen that cruel wolf w'elp a tarin' at a lamb [illegible] that we wus komrads, [illegible] mercy shown; made a [illegible] britches and bit [illegible]. An' then, he made a [illegible], (like a mallard on the w[illegible] Sammy had'ent had an axe, I [illegible] heered the angels sing. Don't talk to me uv wolf w'elps onless the're in a cage, where they kant git at human folks when the're inclined to rage. My wolf an me wus komrads, an' he played me fur a fool; fur he didn't hev' no honor, an' he would'ent play by rule. Him an' me, we made a treaty, or hed been shot by Dad; an' I wus fooled an' trusted him bekause he looked so sad: but never more will I trust one, (be it man, brute, beast or bird), what holds his needs or longin's more sacred then his word. Let wolves delight to snarl and bite, fur 'tis their nature to; but yo' ken bet yo'r lastest cent, thet I know what to do. Next time I make a treaty with a varment uv his kind, I'll make one thet I'm mighty shore is alwus goin' to bind. A shot gun or a steel trap, or a cage thet's stout the test, is the only kind uv treaty thet'll give me lastin' rest. An' so if yo'r inclined to take a wolf w'elp fur a pet; be certain thet yo've got him fast. Be SHORE yo' don't forget."

This is the kind of philosouhy of peace which the events of the great War have forced me to adopt. I am hoping and praying for a speedy peace but I want one which will last; for the world must not be called upon to stand such a waste of life and misery and honor, not to speak of the less valuable material things, in all the years of the future.

MASON'S DAILY WAR REVIEW

By J. W. T. Mason
Written for the United Press

New York, March 18.—Russia's acceptance of Germany's peace terms has been repudiated even before the signatures have been attached to the ineffective document.

The resignations of six commissaries from the revolutionary government in protest againt any agreement with German imperialism demonstrates that only a small clique under the domination of Nikolai Lenine is responsible for the unreasoned action of the Pan-Soviets at Moscow Von Hindenburg's diplomats are once more in a quandry. They cannot trust the peace they have made for fear of betrayal; and they dare not continue to treat Russia as an active enemy lest this provide the very impetus for a recovery of Russia's offensive powers.

There is every reason to believe that the delegates to the Pan-Soviet Congress were men without experience in public affairs, who were not informed authoritatively concerning the terms of the peace treaty they were accepting. They put their trust in Lenine, who, pracically alone, is responsible for the delivery of the paper pact to the German autocrats.

It is impossible to believe the Germans will even attempt to carry out all the provisions of the peace agreement at Russia's expense; while the war continues on the west front. The terms that press onerously upon the Russian people will probably be ignored for the time being. To attempt to exact them might too easily rouse the Russians to a new fury.

The Kaiser, in fact, wants a Russian peace agreement primarily for bargaining purposes with the western democracies when he is defeated on the west front. Now for the Russian revolutionists who no longer trust Lenine to wrest from the Hohenzollerns even this small comfort. The probabilities favor such a development. Russia is historically the land of surprises. The revolutionary spirit is too dominant there for any kind of agreement with the Hohenzollerns to endure.

FIVE LOAVES AND TWO SMALL FISHES

Out of the terrible crucible of war comes much fine gold, and no more profoundly spiritual thought has been brought forth than that of the British Prime Minister, on March 13:

"The people face big things, but get worried over small ones. There has been only one successful Food Controller in the history of the world—the One who made five loaves and two small fishes feed a multitude. I tell you what rationing means. It means that a nation in the furnace of war is becoming more of a brotherhood."

More than three years ago it was said in these columns that the spiritual influence of the war would have an enormous effect upon mankind, and that it would mean a revival of religious belief in its best and humbles application. It should hardly be necesary to say in a newspaper which frankly appeals to business men that such development is of the most profound business importance.

It was remarkable how the German taint had spread among our clergy of all denominations, except the Catholic and perhaps the Jew. Materialism the German substitute for the God we spiritually conceive, took the form of what was called "higher criticism." It reduced Christianity to a mere philosophy, inferior to many others of which the world has had experience. It denied the divinity of Christ, and it created a god for itself, which was about the sort of god which might be represented by Hegel or even the Kaiser himself plus omnipotence.

But we are coming back to the humbler view where we recognize ourselves as creatures and not as partners with the Creator. We are learning that death is a little thing in life, and that the length of life is of the smallest importance when compared with the way we live it. We are beginning to bear our burdens by sharing them. If the distribution is unequal we shall learn better as time goes on.

We are learning that when God in his judgment and infinite wisdom lays a burden upon our shoulders, he always places his hand beneath the burden to steady it. We may so live that we only feel and resent the burden. But the war can teach us we can so live that we only feel the Hand. —(Wall Street Journal.)

TOMORROW'S DUTY

Every man owes it to himself, his family and his country to take some part in the government of his country and at least exercise the right of voting which is guaranteed to him under our laws. In no other way can a man be an integral part of his government and the actual governing of his coutry. In no other way can he so surely exercise his right to have a say in what is done in that which affects his welfare and his happiness and yet there are thousands who are negligent of this opportunity to do good as they have the knowledge to see it.

In addition to voting at the general election The Progress believes that it is very essential that every man study the principles of the different political parties and decide for himself, assisted by whatever arguments there are presented, what principles of government are best for us in this particular time and in the near future which is indeed just around the corner from today. In the parties there is union and strength and unanimity of purpose and as this nation is governed on the principle that majority rules it behooves every man to make himself a part of that political party which appeals to him as representing the ideals and principles in which he believes.

Today and tomorrow is the time to enroll with one of the parties in order to have a choice in the selection of candidates at the Primary Election which is to be held on May 21st. Today and tomorrow the assessors are sitting at the various polling places of the county and the assessor in your district must enroll you in the party of your choice. This sitting is also for the purpose of enabling you to change your enrollment if you so desire.

The man who takes no part in the politics of his country is indifferent to the welfare of those around him and shirks a responsibility which he owes to his brother man.

45,000 BOYS ARE WANTED SOON

Pennylvania's job in the national drive to recruit farm labor which opens on March 18 is to enroll at least 45,000 boys and 90,000 men for work on Pennsylvania farms.

It is a big job and it is being handled in a big way. Considering the activities that have been set in motion to promote the work, it will be surprising if the total number of men and boys enrolled does not greatly exceed the allotment fixed as Pennsylvania's quota.

The recruiting is being conducted by the U. S. Public Service Reserve for Men and the U. S. Boys' Working Reserve in co-operation with the Pennsylvania Committee of Public Safety. Lieutenant Governor Frank B. McClain, chairman of the Pennsylvania Agricultural Labor Service Committee, is personally taking an active part and has issued proclamations appealing to men and boys to do their "bit" in the land army. Workers will be placed on farms through his Committee.

Two thousand mayors, burgesses and town councils have been requested to arrange for rallies on "Farm Labor Sunday," March 24. Ten thousand clergymen and 11,000 Sunday School superintendents have been urged to conduct these rallies in the churches and schools. The aid of nine thousand fraternity units, patriotic societies, clubs, labor unions and other organizations has been solicited. Two thousand public school superintendents and principals have been specially urged to participate, also 50 college presidents. Speakers to the number of 7000, including the 4-Minute Men of the Speakers' Bureau, are under call and the week of March 24 will be devoted exclusively to farm labor speaking by the official bureaus.

All newspaper editors, public officials, and prominent civilians thruout the state have also been urged to assist. The Government will sidetrack all other recruiting work and right of way will be given to the job of finding labor to back up the farmer.

GALLANT BRITISH OFFICER WEDS ESTHER CLEVELAND

Miss Esther Cleveland daughter of Former President Grover Cleveland, has become the bride of Captain W. S. D. Bosanquet of the Coldstream Guards. The marriage took place at Westminster Abbey.

Captain Bosanquet has won the Distinguished Service Order of England for gallant service at the front. Mrs. Captain Bosanquet has the distinction of being a "White House" baby.

Mrs. Emily R. Weisberg, an active suffragist, is one of the first women in New York City to be appointed a receiver by a Justice of the Supreme Court.

Mrs. A. H. Taylor, of Bowling Green, Ky., is the manager of a large and successful mail order business.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or $1.00 for extra large size, get a bottle of zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.
The E. W. Rose Co., Cleveland

SHOWER FOR RECENT BRIDE

A miscellaneous shower was given last evening at the home of Miss Cecelia Ross on Cherry street in honor of Mrs. Raymond Roseberry who before her recent marriage was Miss Ganella Schenck.

It was a St. Patrick's day affair and the color scheme was in keeping with the day. Dancing, games and music were indulged in until a late hour when a delicious lunch was served.

Mrs. Roseberry was the recipient of many lovely and useful gifts of china, cut glass and linen.

JUVENILE DELINQUENTS SENTENCED

Juvenile Probation Officer Leavy took two juvenile delinquents to detention institutions near Philadelphia Monday morning. Violet Moyer, of Chester Hill, was taken to the girls school at Darlington and James Shannon of Osceola, to Glen Mills. Both were sentenced by Judge Bell.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes and sprinkled in the bath. The Plattsburg camp manual advises men in training to use Foot-ease in their shoes each morning. It prevents blisters and sore spots and relieves painful, swollen, smarting feet and takes the sting out of corns and bunions. A certain relief for sweating callous, tired, aching feet. Always use Allen's Foot-Ease to break in new shoes. Sold everywhere 25c

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SCOUT TO BE PRESIDENT

I welcome any movement which will intensify a young man's attachment to his church and religion, says Dr. S. R. Gordon of Tulsa, Okla.

The boy scout movement only brings the boy in closer touch with the church. The government now wants men to go to the front and fight. It wants and needs good, clean, strong men.

At the close of this awful world conflict there will be greater need for good men than now. When this war is over, there will be confusion, dissatisfaction, unrest, anarchy, high taxes, high cost of living and demoralization. Sorrow, mourning and distress will prevail.

Under such conditions the nation will need strong, educated, religious men as leaders. And the boy scout movement is going to provide such leaders. The boy scouts are preparing themselves, not to fight, not to shed blood, but to be wise leaders, and to conduct the people out of the wilderness of greed supremacy and worldliness, into the Canaan of peace, prosperity and happiness.

Some boy scout is going to be the president of the United States. Some scouts are going to be governors. Some will be senators and others will occupy high official positions of trust and honor.

So we want the boys to stick to their school and their church and thereby fit themselves to be men who will be qualified to rule wisely under the most trying circumstances.

SCOUT PROGRAM IN WAR.

Prof. Norman E. Richardson of Boston university tells the Boy Scouts of America that the war in European nations has resulted in a rapid increase of juvenile delinquency. Information that has been carefully secured goes to show that this increase in 17 of the larger cities and towns of Great Britain during one year averaged 24 per cent. The causes of this unfortunate condition are in many instances similar to forces that have already begun to operate in America. It is imperative that the American people take time by the forelock in this matter by setting in motion immediately influences that will counteract a number of injurious forces which will play upon the lives of our boys during the coming months and possibly years.

A careful study of the causes of increased delinquency and of the suitability of the Boy Scout program to reduce the harm coming from these influences presents a powerful argument for the immediate enlistment of thousands of America's best citizens as scoutmasters.

NEWSBOYS TAKE UP SCOUTING.

Newsboys of Houston, Tex., many of whom are "good scouts" already, are going to align themselves with the Boy Scouts of America.

Some of them have been thinking of the proposition for some time, and after the purposes, plans and benefits of the work of the boy scouts had been outlined to them in detail by the local scout executive a large number of the boys enrolled for the work. The newsboys are enthusiastic over the opportunity to enter it.

The scout officials expressed the opinion that they have some excellent material to work upon, especially after they had seen the grit manifested by the boys in a number of boxing matches and wrestling bouts, which were put on for the entertainment of the guests.

SCOUTS CUT UP BIG TREES.

The attention of Herbert Hoover ought to be called to the work of boy scout Troop No. 25 of Des Moines. These scouts, under the direction of Scoutmaster M. H. Anderson, took three or four big trees which were cut down in that neighborhood, and cut them up into stove wood for needy families.

Saturday finds them hard at work with crosscut saws, buck saws and axes doing a neighborhood "good turn" and making the chips fly. They have cut about thirteen cords into stove lengths.

MANY MERIT BADGE SCOUTS.

The national court of honor of the Boy Scouts of America reports that last month there were 14 eagle badges issued and 27 life badges.

There were 23 star scout badges issued. There were issued 180 merit badges. For 1917 so far there have been issued 1,649 merit badges, as against 741 in 1916. The total number of boy scouts having received merit badges is now 9,537.

GOOD TURNS BY SCOUTS.

Drafted men who had failed to report were located by boy scouts in Brooklyn.

Scouts in Woodmere, N. Y., raised 400 barrels of potatoes, which were sold to the poorer class of the community at cost, the scouts supplying their labor free of charge.

Westchester county members of the American Red Cross were given a demonstration of stretchers and first-aid work by the boy scouts of Mt. Vernon, N. Y.

The National League for Woman's Service is arranging to give a great patriotic food show in New York next month.

Plow Repairs

Frost is out of the ground. You're going to do your utmost this year both in acreage and in making two spears of grain grow where one grew before.

Get your plows repaired for the spring drive. We have a very complete assortment of plow shares, breakers, moldboards, handles, chains and the like.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and to Neutralize Irritating Acids

Kidney and Bladder weakness result from uric acid says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame causing a burning scalding sensation or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia water drink, which quickly relieves bladder trouble.

FIGHTING FOR PATRIOTISM IN WISCONSIN

FRANCIS E. McGOVERN IRVINE L. LENROOT

Former Governor Francis E. McGovern of Wisconsin will not be a candidate in the Republican primaries for United States Senator against Representative Irvine L. Lenroot. He has announced his withdrawal in order to consolidate the loyal American vote against the La Follette candidate.

PRESIDENT URGES WAR GARDENS AT HOME AND SCHOOL

The home and school garden proposition meets with the hearty approval of President Wilson. An effort is being made here to amalgamate all the gardening propositions in the city. The city, the schools, the committee on Public Safety and other organizations are working toward that end.

President Wilson has written Secretary of the Interior Lane expressing the hope that "every school will have a regiment in the Volunteer War Garden Army"—the army of school children that, it is hoped, may raise this year produce amounting to $500,000,000.

"Every boy and girl who really sees what the home garden may mean," writes the President, "will, I am sure, enter into the purpose with high spirits, because I am sure they would all like to feel that they are in fact fighting in rFance by joining the home garden army."

In his letter, which follows the President approves the design of Secretary Lane to arouse the school children of the United States to "as real and patriotic an effort as the building of ships or the firing of cannon."

"25 February, 1918.

"My dear Mr. Secretary:

"I sincerely hope that you may be successful through the Bureau of Education in arousing the interest of teachers and children in the schools of the United States in the cultivation of home gardens. Every boy and girl who really sees what the home garden may mean will, I am sure, enter into the purpose with high spirits, because I am sure, they would all like to feel that they are in fact fighting in France by joining the home garden army. They know that America has undertaken to send meat and flour and wheat and other foods for the support of the soldiers who are doing the fighting, for the men and women who are making the munitions, and for the boys and girls of western Europe, and that we must also feed ourselves while we are carrying on this war. The movement to establish gardens, therefore, and to have the children work in them is just as real and patriotic an effort as the building of ships or the firing of cannon. I hope that this spring every school will have a regiment in the Volunteer War Garden Army.

"Cordially and sincerely yours,

"(Signed) WOODROW WILSON"

It is Secretary Lanes idea that is being worked out through Commissioner Claxton, of the bureau of education, to have 5,000,000 boys and girls of the schools in every city, town and village in the country, captained by 40,000 teachers, produce as nearly as possible all of the vegetables, small fruits and eggs for their home consumption.

To the extent that each district is able to supply itself with these food products, the railways will be relieved of the burden of transporting them, and the allies of the United States in Europe and our own soldiers on the battlefront whl get that much more of the food of which they are in need.

Coffee is clean if bought in the right place . . .

If coffee were white, you could see the dirt and dust on the peddler's product. Trade with your grocer—he keeps a clean store and sells clean coffee.

He sells Golden Sun Coffee in dust-proof packages. You will like it for its full weight, its freshness, its superb flavor. You'll find that it makes more cups to the pound—there's no dust or chaff in it. Try it today.

GOT TWO MORE DEER KILLERS

Harry Hummelsbaugh, who spent the past week at the Kennedy Park Game reserve on the mountains north of town, returned home last evening and informed us that two more dogs were killed near the game reserve Sunday last. This makes four dogs slain during the past week.

There are still some dogs running the mountains from time to time and plans are now working out to land every one of them.

In Multnomah county, Oregon, which includes the city of Portland, nearly 40,000 women voters have registered for the coming primary election.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

J. B. Garner has been housed in for several weeks suffering from sciatic rheumatism.

The Curwensville Fire Brick Co., with efficiency alone in view, are installing several new motors in their plant here. A car load of motors and electrical apparatus arrived recently.

Clyde Silknitter and family have moved to Bellwood where Mr. Silknitter will be employed in the machine shops.

Mrs. Mary Hallan who spent the winter with her daughter, Mrs. J. B. Garner, returned to her home in Philadelphia Sunday.

Cecil Hummel is on the sick list at his home on Irwin Hill.

Mr. and Mrs. Boyd Robismon have gone to housekeeping on Filbert street.

D. E. Reid and daughter Miss Edna of Glen Richey, were week end visitors with relatives in town.

Mrs. A. G. Ammerman is among the number reported on the sick list.

Miss Elsie Throne, daughter of Mr. and Mrs. F. W. Throne of Irvin Hill, who was operated upon for appendicitis at the Clearfield hospital Friday, is geting along as well as can be expected considering the operation.

Miss Maude Elder was the guest of Miss Lysle Cooper in Clearfield over Sunday.

The ladies of the Presbyterian Aid Society are making great preparation for the roast pork supper in the basement of the church Thursday evening.

Miss Eastman left yesterday for Baltimore to visit her sister and brother-in-law Capt. and Mrs. J. M. Craven. Later she will visit her nephew, Sergt. J. Russell Mullen at Camp Meade and her brother H. A. Eastman and family in Washington.

Mr. and Mrs. Irvin Toizer of Bloomington were Curwensville visitors with friends Saturday.

Attorney John J. Pentz, of DuBois, was a Monday caller at the home of Harris M. Hoover.

DODGERS BOWL GIANTS TONIGHT

In the bowling league the giants are leading, having lost only one game.

Tonight the Dodgers will bowl the Giant. Watch the pins fly when Smith makes a sloppy strike. Leffler is a good bowler but A. Wilson is better on a finish. P. Roseberry made the Curwensville team which is quite an honor (?). It is not necessary to say anything about the Dodgers, as this team is made up oaf good bowlers. Admission to this game is free.

CARD OF THANKS

Mrs. James M. Woolridge and family wish to express their heartfelt thanks and appreciation to all friends and neighbors who in any manner so kindly extended their sympathy and assistance during the illness and death of their beloved husband and father.

NOT SORRY NOW IT COSTS MORE

Does Not Regret his Eating is More Expensive Due to Tanlac

This convincing Tanlac story was told by C. J. Swires, of 1819 Eighth Avenue, Altoona a signal fitter.

"I have been a great sufferer from catarrh in an advanced stake," Mr. Swires began. 'I have used everything I ever heard of, I believe," he continued, "but nothing I used helped me one particle. There were mucous discharge from my nose that affected my throat, vioent coughing, offensive breath, impaired appetite, dizzy spells and, altogether I was in a nervous run-down condition, and contracted colds.

"I heard of the wonderful work of this new medicine Tanlac and I immediately got me sume of the medicine. I am certainly glad that I purchased the medicine and began taking it when I did, as it has done me a world of good. I have taken two bottles of Tanlac and am now on my third. This statement of mine is therefore not hasty, but is based on ampe proof. All the symptoms from which I have suffered have disappeared and I believe Tanlac has cured me. I am, however, going to keep on taking the medicine as I believe I will get better than I ever was in my life."

Tanlac is now sold here by Woodward & McPherson.

PUBLIC SALE

The personal property of the late James M. Woolridge of Bradford town, will be sold at public sale at auction at the farm formerly known as the John C. Stewart property, in the township of Bradford, Clearfield County, Penna., (2 miles out from Woodland) on Wednesday, March 27 1918 at one o'clock p. m. consisting of the following: One fresh cow and calf, two cows, three head young cattle, one mule, one horse 7 years old, harness, 1 spring wagon, 1 one-horse wagon, 1 hay rake, 1 mower, 1 buggy, 1 sleigh, 1 cultivator, 1 harrow, 2 plows, 1 hay fork, 1 hay knife, about 200 bushels oats, 40 bushels wheat, 75 bushels rye, 40 bushels buckwheat, 4 bushels seed corn, 100 bushels potatoes, baled hay, baled straw, and many other articles too numerous to mention. COURT NOTES

John C. Arnold, Esq. filed a petition in the Prothonotary's office this morning in which Mrs. Della M. Dodge asks for a divorce from her husband, Wilbur Dodge. The Dodge's were married June 23, 1907 and Mrs. Dodge has been compelled to dodge divers and sundry things fired in her direction by Dodge practically ever since it is inferred from the statement filed. The job became too strenuous and on January 15, 1918, she was compelled by his cruel and barbarous treatment to leave his home and the divorce suit follows.

Pentz & Pentz entered suit on behalf of Andrews Bros., of DuBois, against the Western Union Telegraph company in which it is sought to recover $150 amount of loss to plaintiffs through failure of the Telegraph company to properly handle a telegram ordering a shipment of onions on November 1, 1917.

RESIGNED AFTER TWELVE YEARS

CLIP THIS OUT MAY COME HANDY

Tells how to take soreness from a corn and lift it right out

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of this to a tender, aching corn and the soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

PERISHABLES ARE NECESSARY

Essential as Nutriment and Under the Protection of Authorities in Washington.

Philadelphia, March 19.—C. J. Tyson and M. T. Phillips, representatives of the farmers in the United States food administration for Pennsylvania, have issued a statement to the farmers of the state making an appeal for the increased production of fruits and vegetables.

Their statement follows:

Reports have been widely current that perishable products, such as fruits and vegetables, would be discriminated against in shipping during the coming season. We have subjected these reports to the Food Administration at Washington and have received from that source emphatic denial of the truth of such statements.

G. Harold Powell, assistant to Herbert Hoover, the Federal Food Administrator, in an interview with Mr. Tyson, set forth the situation as it is. Mr. Powell is in charge of the perishable products division of the National Food Administration. He said:

"Apparently there is serious misunderstanding by the public of the attitude of the Food Administration towards the free consumption of perishable materials.

"Foods of the Perishable Products' group are essential to nutrition, and their continued production, distribution and consumption are vital, in view of National and International necessities. The Food Administration desires to emphasize these facts, and to assure all producers and handlers of milk products, poultry and eggs, fish, fruits, potatoes and vegetables that no restrictions have been placed on such food materials, or are liable to be.

"Not only are these foods of great use and value in supplying the ordinary basis of nutrition, but vary the diet and promote palatability of the foods used with them; most of them are succulent or supply necessary bulk in the ration, which aids digestion; and some serve as efficient and necessary regulators of bodily functions thus warding off ill health.

"There are many sections where perishable products can be grown to greater advantage than staple crops. Any movement which leads to substituting culture of one for the other, will be liable to cause economic loss. It would be unwise, therefore, to limit the areas devoted to any class of perishable crops.

"Instead of restricting the production, it is believed that there never was a time when the opportunity was greater, from the business standpoint, for the expansion and extension of the perishable food industry, as a whole, than at present.

"There is every hope that the railroads will soon be able to move all classes of freight freely and promptly. Even in times of congestion perishable food products have been placed in the first priority group, and there is no reason to expect any change in this policy."

TO EXPOSE SLACKER HOTELS

Hulme Issues Appeal and Warning Regarding Pledge Cards.

Philadelphia, March 19.—The Federal Food Administrator for Pennsylvania has sent out the following communication to all County Administrators:

The United States Food Administration at Washington is greatly disappointed over the showing we have made up to date in securing signed Pledge Cards from Hotels, Restaurants and Clubs. Out of 28,000 establishments we have received only 9000 cards. This is to be regretted and it is now up to us to make a more creditable showing in line with our duty.

It has been decided to start an extensive campaign that ends April 1st. By that date we have promised Washington to have a 100-per cent registration. Will you please, therefore, start immediately to get every Hotel, Restaurant and Club in your County that has not signed a pledge card to do so and send same to this office at the earliest possible date? Inasmuch as we are now asking the observance of only one MEATLESS DAY (which is a Restless and Porkless Tuesday—mutton and lamb may be used at any time), two WHEATLESS DAYS—Monday and Wednesday, and a WHEATLESS MEAL EACH DAY, you should have no difficulty in getting the enthusiastic co-operation of every Hotel, Restaurant and Club that is not a plain slacker. You can tell Hotels and Restaurants that we expect to publish on April 1st, an Honor List containing the names of those who have signified their willingness to co-operate. No loyal or patriotic American should refuse your request and I know that you will make the showing for your county that we expect.

Dr. Mary Freeman holds the office of second vice-president of the Florida State agricultural commission.

Temperance Notes

(Conducted by the National Woman's Christian Temperance Union.)

THE ENEMY ON LAND.

Mr. J. S. Strachey, editor of the Spectator (London), once an advocate of the drink traffic, has since the beginning of the war made prohibition the policy of his paper. In a recent public address he told this story:

"A city, though its armies were victorious, was in dire straits for food. Strict search was made to see that nothing that could be used for food should be wasted, and lo, a great store of barley and sugar was found. And the general thanked God that they were saved. There was enough barley and sugar to enable them to hold out till the re-victualling that was sure to come in a few months. The barley, mixed with corn, would make excellent bread and the sugar would save the children.

"'Alas,' said the civil authorities, 'all this barley and sugar must be turned into beer; we dare not touch it.'

"The general, who was a simple soldier and did not understand politics, was angry. 'This is a town of sane people, not a lunatic asylum, nobody can be allowed to turn into beer what might be made into bread and so save the people.'

"But it was even so. The city fell and the conquerors drank the beer!"

Mr. Strachey hammered his point home with these words:

"The proper thing to do, the straight thing to do, the only honorable thing to do, is to stop the brewers and give the people bread. With famine facing the world, the government must stay the food destroyers on land as well as on sea, if we are to have victory."

CANADA'S WHITE MAP.

Provincial prohibition is now in operation in the provinces of Alberta, Manitoba, Nova Scotia, Ontario, Prince Edward Islands, Saskatchewan, New Brunswick and British Columbia. At the time the above map was made the province of Quebec was 84 per cent dry. Since then Missisquoi county and the city of Quebec have voted dry. A proposal by Yukon territory to petition the Dominion parliament for territorial prohibition was defeated by the narrow margin of three votes. In the remaining part of the Dominion of Canada, generally known as the Northwest territories, the sale of liquor is prohibited, and strong drink may only be imported on special permits, specifying the kind and quantity of liquor which they cover.

HOT WATER THE BEST LIVER AND BOWEL MEDICINE

Says Glass of hot water before breakfast washes poisons from system

Physicians the world over recommend the inside bath claiming this is of vastly more importance than outside cleanliness because the skin pores do not absorb impurities into the blood, causing ill health while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, achink head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results botht in regard to health and appearance.

Gossip for Tonight's Tea Table

Mrs. J. A. Robison has returned from Philipsburg where she attended the funeral of Henry Nash who died while in the service of Uncle Sam.

James Porter has returned from a business trip to Harvey Del.

The Hospital Bridge Club will meet Wednesday afternoon at two o'clock at the home of Miss Edna Johnson on South Second street.

Mrs. Albert Wright Jr., and son Dick have returned from a few days' visit with friends in Grampian.

Mr. and Mrs. Alfred Braund of DuBois have moved to Clearfield and expect to make their home here. Mr. Braund has accepted a position at the Kurtz Tablet Factory.

Mrs. Harry B. Snyder is visiting her mother Mrs. Thomas Byron at Philipsburg.

Mrs. Anna Rey has returned from a few days' visit with Dr. and Mrs. W. B. Henderson at Philipsburg.

Russell Shaw, a member of the 58th Coast Artillery regimental band located at Ft. Ttotten, N. Y., is home on a furlough to visit his wife.

Hayes Wilson left today for Camp Hancock, Augusta, Ga., where he is a member of the 109th Machine Gun company after being home on furlough to visit his parents.

Mrs. Delma Bradford has returned from a visit with friends in Huntingdon W. Va., and Kentucky.

N. C. Tobias of New Millort, was in town on business today.

Samuel Swatsworth of McCartney, attended to business in town today.

Rev. W. W. Hartman left this morning for Williamsport to attend conference.

Splendid Showing of The New Spring Silks and Dress Materials

An Exhibit That Will Be Viewed With Eager Interest By Those Planning Early Spring Clothes

Our silk and dress goods goods department is making an early bid for your patronage—and in a manner that will meet with your entire approval, for we have assembled only the most desirable weaves, colors and designs that are to be worn this season.

Here you will find fabrics that are being used in the ready-to-wear garments fashioned for Spring, so you may choose from the collection shown with confidence. The wise home dressmaker always buys early, for she then has ample time to plan her Spring clothes and to determine upon a style best appropriate for wearing with her other garments. The materials include among the most staple and favored fabrics, such *new* materials as new silk ginghams and a number of novelty wool materials in plaids and other effects.

New Foulard Silks at $2.00 a Yard

32 inches wide, white backgrounds with printed designs, blue and brown. Some show very large effects and others a combination of smaller designs as well as the popular coin sports. All the designs shown are new and original. The colorings are rich and desirable. You will find, too, several entirely new patterns in Standard fashion books showing the use of foulard silks for Spring and Summer dresses.

Imported Shantung

Shantung is going to be VERY much in vogue. Very firm weave; plain or in bright prints that are in keeping with Spring color schemes.

Taffetas. Thirty-six inches wide in all the new plain shades at $1.75 a yard.

Messalines at $1.50 and $1.75 a yard.

Georgette crepes, crepe-de-chine in a large selection of the new colors for Spring at $2.00 a yard.

VOLUME XII. CLEARFIELD, PENNSYLVANIA, TUESDAY EVENING, MARCH, 19, 1918 NUMBER 226

HERTLING WILL NOT DISCUSS RUSS TERMS

Wrong When He Says Allies Do Not Want to Finish What He Calls Terrible War

"PASSING THE BUCK" AGAIN

Copenhagen, March 19—Chancellor Hertling, addressing the German Reichstag, declared he did not wish to discuss the enemys opinion regarding the Russian peace treaty, according to dispatches received here today. The Chancellor said the treaty did not contain terms disgraceful to the Russians, and that some provisions were reported waiting the Russians in accordance with their own wishes. If the Reichstag adopts the treaty of peace the whole east front will be restored Hertling said, but among the entente allies there is not the least inclination to finish the terrible war. The resonsibility for continuing the bloodshed will be on the hands of those wishing to continue it. Hertling's declaration was received with loud cheers except from the members of the extreme left

MAINTAINING ARMY STUPENDOUS TASK

Chicago, March 14—To maintain the American army in France 100 pounds of gross tonnage a day must be landed at French ports for each man, according to Captain Earl J. Zimmerman, executive officer in the depot quartermaster's department here.

"The American people have no conception of the quantity of supplies needed for the men 'over there'," said Captain Zimmerman, "nor of the difficulty in getitng it to them. For example, it takes 23,000,000 pounds of frozen beef each month to feed a million soldiers."

In explaining the food supply of the American soldiers abroad and the manner in which it must be sent, Captain Zimmerman gave a general picture of the difficulties of the quarter masters corps in constantly maintaining a sufficient quantity of food.

According to his statement the men in France are on a "garrison ration," the same as soldiers at cantonments in this country. This ration is five pounds a man, each day. This weight, however includes eating utensils and container. For a million men 150,000,000 pounds of rations a month are required, amounting to 4,000 carloads.

A list of the food required for a million men for 30 days would include the following:

23,000,000 pounds of frozen beef.
37,500,000 pounds of flour.
6,000,000 pounds of bacon.
2,000,000 cans of beef.
1,000,000 cans corned beef.
1,000,000 cans corned beef hash.
3,000,000 pounds of sugar.
2,400,000 pounds of coffee.
973,000 pounds of butter.

At all times, Captain Zimemrman said a 30 day supply is maintained in France.

BRADFORD NEWSPAPER MAN HERE

C. H. Miller who has been connected with Bradford Star-Record for more than nine years has been spending a few days in this city.

During his stay he has been looking after the interests of John Richelson of Bradford who has shied his castor into the political arena of the twenty-first congressional district, consisting of Centre, Cameron, McKean and Clearfield counties.

Mr. Miller before leaving the city told The Progress man that he would spend some time in this vicinity as Mr. Richelson intends to make a strenuous effort to place his name before every voter in the district before the coming primaries in May.

MOOSE HERD HEARS PATRIOTIC SPEECHES

The open patriotic meeting held in the Globe theatre Sunday afternoon under the auspices of the Loyal Order of Moose was a largely attended and most enpoyable patriotic occasion.

The committee under the competent direction of D. D. Guppy as chairman prepared a most entertaining program which was carried through without a hitch.

Mr. Guppy presided at the meeting and following the invocation by Rev. Joseph John and the singing of "America" by the audience, introduced W. I. Swoope, Esq., as the first speaker of the afternoon. Mr. Swoope's ability as an orator is too well known to need any encomium at our hands. He is particularly at home with a patriotic subject and did himself proud on this occsion.

A solo by Miss Dorothy Woodwad was the next number on the program and was a distinctly pleasing feature. Miss Woodward possesses a sweetly pleasing voice and her rendering of "Lest we Forget" brought forth a storm of appreciative applause.

Chairman Guppy then introduced Rev. Dr. E. C. Reeve. Dr. Reeve is a finished orator and his address was both highly entertaining and convincingly instructive. Dr. Reeve presented many patriotic thoughts whose common sense barbs caused them to stick in the minds of his hearers and they should be productive of great good in the future.

The charming duet by Mrs. Mack Gallaher and Robert Kennard, which followed Rev. Reeve's talk was fully in keeping with the high class of the program throughout. Mrs. Gallaher and Mr. Kennard are among Clearfield's most talented vocaists and added anew to their laurels by their admirable singing on this occasion.

Hon. Joseph E. Philips then briefly outlined the duties of a patriotic American relative to financing the war savings income tax, etc., and his remarks made a deep impression upon his hearers.

The audience then joined in singing "The Star Spangled Banner" and following benediction by Rev. John, filed out on their ways to their several homes, well pleased with their patriotic pilgrimage and better Americans for what they heard and witnessed.

It was a highly successful occasion and the committee in charge is deserving of commendation for the beauty of the decorations about the stage and the excellence of the program furnished. A capacity audience was present.

PATTON MISS GETS DIVORCE WHILE GOING TO SCHOOL

Detroit, March 19.—"Please, teacher may I go down town this morning and get a divorce?"

Anna Stillman, aged 16 years, made this request of her teacher in a Detroit public school this morning. She was excused. Three years ago in Patton, Pa., Anna's father called her from school one day, introduced her to James Stillman, aged 27 years, who told her to hold his hands, then the Justice of the Peace read something out of a book, and then she was told she was Stillman's wife. Her father had been forced to sign a marriage agreement when he was temporarily blinded and Anna obtained her divorce.

REJECTED ON PHYSICAL GROUNDS

Mike Witchura, of Ramey, and Mike Rinage, of Morrisdale, who were sent to Camp Lee with the last contingent from Clearfield, have been rejected for physical reasons and sent back home.

Port Rupe, of Hawk Run, who recently enlisted and was sent to Camp Green at Charlotte, N. C., was also rejected on account of his eyes.

Second Lieutenant George A. Dale, a Clearfield boy, was dicnarged from the 112th Regiment at Camp Hancock Augusta, Georgia, on Monday last. Lieut. Dale, who visited his father, A. M. Dale, several weeks ago, suffered a severe attack of ptomaine poisoning at Camp Hancock several months ago which left him in such condition that the army authorities were forced to discharge him from the service.

Lieut. Dale went up from the ranks to a second lieutenancy and his host of local friends sympathize with him in his misfortune.

THREE COLORED WOODLAND MEN HAVE SMALLPOX

One of the Harbison-Walker boarding houses at Woodland was quarantined for smallpox yesterday afternoon, three cases of the loathsome disease having been discovered among the sixteen inmates.

The victims are Kid Lee, Will Armstrong and Thomas Williams. The latter fellow is one of the men selected for military service from District No. 1 of Clearfield county. He was called for examination last Monday and examined by the late Dr. Samuel C. Stewart. Williams had a high fever and complained of feeling badly at the time of his examination and took his bed the following Tuesday. Dr. Shivery was called and while the symptoms inclined toward smallpox, they were not sufficiently pronounced to warrant the doctor in calling it that. However the tell-tale eruptions appeared on Thursday and then Dr. Paul Frantz, of Clearfield, Deputy County Medical advisor, was called in. The two physicians made a careful diagnosis and finally were able yesterday to pronounce the disease small pox.

By that time Lee and Armstrong were both stricken and while a close quarantine was immediately enforced grave fears of a wide spread of the disease are entertained.

County Health Inspector M. L. McQuown was promptly on the job and is in charge of the enforcement of the quarantine. Guards will be employed and every effort made to prevent the disease from spreading.

Meanwhile a wholesale vacination campaign has been started in Woodland.

FARMERS SEED CORN IS BEING TESTED

A seed corn exhibit or test is being conducted in the old Clearfield National Bank building on Second street under the direction of the County Farm bureau as a part of the plan to supply Clearfield county farmers with suitable seed for the coming summer's planting.

The test is in charge of R. E. Weisgerber, brother of County Superintendent C. A. Weisgerber, and a graduate of the agricultural department of Pennsylvania State College.

Two kinds of corn, the crib and ensilage, will be used in the test and the proceeding, while unique to the uninitiated is advantageous and satisfying. Mr. Weisgerber has fitted up a number of trays for what is known as the "sand test." Each shelf in these trays is covered with muslin marked and squared and five grains of corn from each ear in the test is located on one of these numbered squares, the ear from which the grains have been secured bearing the same number is retained on a convenient shelf to avoid error in determining which particular ear the corn is from. The grains are covered with sand which is dampened and the room kept at a temperature which will cuase the corn to germinate in from five to seven days. Each tray will hold from twelve to fourteen bushels at each test and in this way every ear of the several hundred bushels of seed ordered by Clearfield county farmers will be given a thorough test.

The test requires that 80 per cent. of the grains from each ear must properly germinate or the ear is rejected for seed. When an ear meets the requirement the small or imperfect grains at each end of the ear is removed and the balance thrown into the sheller and the shelled corn then placed in the seed boxes; and it is from this scientifically determined healthy seed that our farmers will be served.

Following the development or test of the seed the filling of the orders will take place.

As we said before there are orders already on hands for several hundred bushels and while it was intended to cease taking orders on March 20th, the time has been extended for a few days, in order that all our farmers may take advantage of this oportunity to secure first class seed. Orders will be filled for both crib and ensilage corn in the order of their receipt.

Rev. J. E. Gearhart will lead prayer meeting at Trinity Methodist church Wednesday evening in the absence of Rev. Hartman who is attending conference.

SHAPLAN'S CABLE

By Joseph Shaplen
Copyrighted by United Press 1918

Petrograd, March 18—Russian officials including former Bolsheviki and Soviet revolutionary commissariats who opposed the ratification of the Brest-Litovsk peace terms are organizing resistance against the Germans Fifty dissenting Bolsheviki have adopted a minority report to the Pan-Soviet peace ratification. All Russian officials today announce they had agreed to German cooperation in regard to the whole country. They said the "cooperation" leads only to Petrograd where a small commission of Germans are expecting to have great power. Twelve Romanoffs of which the former Czar is a member has been exiled to the remote interior, following a hearing of charges of suspicious "anti-Revolutionism." All were disinterested regarding their fate and "broke" including the Grand Duke Nicholas, the historian.

Petrograd, March 18.—German forces have occupied Konotop, Arosshba and Bachmatsch. Saxon troops are reported continuing toward Kursk and Kharkoff. The local Soviet is evacuating Kharkoff. The German movement is regarded as a "covering" campaign for Ukrania. The Russian retreat from Odessa was ordered. The Black Sea fleet refused to fire bombs at the city after German occupation because it was loath to destroy it. The city is awaiting the arrival of the Soviet revolutionists to ratify the peace treaty and who are now en route to Moscow.

LOCK HAVEN ARMY DESERTER COMMITS SUICIDE IN WEST

By United Press

Muskogee, Michigan, March 19—Sergeant Carl D. Smith, a deserter from Camp Custer, committeed suicide here today in front of his sweetheart's home, after the girl, Katherine Schabler, a German, turned him down. Papers found in his pocket showed that his real name was Elvin R. Wier. A code letter found in his belongings eld the coroner and police to believe he was a German spy. He shot himself through the heart. Smith left Camp Custer January 7. His father lives in Lock Haven, Pa., and two sisters live at Caldwell, Pa., according to papers he left.

NEW COMMISSION WILL FIX PRICES ON WAR NEEDS

(By United Press)

Washington, March 19.—Creation of a price fixing committee under authority of the War Industry Board was announced today. The committee will be composed of R. S. Brookings, of the War Industry Board, as chairman, Brigadier General P. E. Pierce, General of Supplies for the War Department, Paymaster John Hancock, of the Navy Bureau of supplies, Dr. H. A. Garfield, Fuel Administrator, F. W. Taussig, Chairman of the United States Tariff Commission, W. J. Harris, Chairman of the Federal Trade Commission, Hugh Frayne of the War Industry Board and Bernard Baruch, Chairman of the War Industry Board. Another civilian member will be named later.

The committee will pass upon prices for all basic raw material and establish a price fixing policy to be submitted to the President for approval. Its power will be purely advisory and recommendatory. Legislation pending before Congress it was thought possible, however, may be advocated later to give force to full administrative decision. The price fixing committee will act upon industrial production and distribution. It will sit continuously.

FRANCIS AT VOLGODI

(By United Press)

Washington, March 19—Ambassador Francis was still at Volgodi on Sunday, State Department cables declared today. Butler Wright, embassy attache, had started for Harbin but Francis gave no intimation of the movements of himself.

Progress Want Ads pay.

INDUSTRIAL HOME SHOULD BE BUILT IN THIS COUNTY

The matter of the selection of a site for the location of the proposed district workhouse and industrial farm for the district of which Clearfield county is a part was discussed at a meeting of the Mine Trustees representing the different counties of the district at a meeting held in rensburg on March 11th last.

Our county was represented by County Commissioner H. H. Spencer who was recently appointed for the purpose by Judge Bell, under the terms of the law providing for such departure.

At the preliminary meeting the question of operation under the law was generally discussed and while some of the Trustees rather favored delaying the building of the institution until after the war, a majority expressed themselves in favor of carrying out the provisions of the Act of Assembly as soon as it could be done.

A fund of $1,000 was created for the purpose of financing the investigation of proposed sites, etc., and it was decided to recommend a site according to the law's provisions of not more than 500 acres, same to be located accessible to the railroads, with good water and drainage, suitable for farming, fruit and stock raising, and adjacent to material that could be used for road building purposes.

The latter provision makes Clearfield county the logical place for the location of the new institution and a determined effort should be made to have same located within our borders.

The trustee in each county has been directed to look up proposed sites in his county. Therefore, any person having a desirable location which will fill the requirements enumerated should communicate with Commissioner Spencer on the matter. If you have a site which you would sell or wish considered make your proposition in writing to Mr. Spencer at once in order that he may have time to investigate same and be in position to report at the next meeting of the trustes wheich is scheduled for Washington, Pa., on April 17th.

This is an important matter and there is no reason why Clearfield county should not be considered in the location of this institution, which will mean much additional business to the community near which it is located. If you have a site you wish considered notify Mr. Spencer at once.

SERVICE FOR PRAYER AND MEDITATION

Help win the war by prayer.

At the Presbyterian church, for an indefinite period, every afternoon at five o'clock, continuing for fifteen minutes, the organ will be played, and prayer will be offered. Let us as a nation, as individuals seek the presence and communion of the Lord. Everyone is cordially invited to come in and spend a few minutes in prayer and meditation. Pray for yourself, your nation, your own soldiers. Wait upon the Lord in prayer. The church will be open at all hours for prayer and meditation. It is the House of God. It invites you to come. Strangers are always welcome. "More things are wrought by prayer than this world dreams of."

WILSON SIGNS BILL SAVING DAYLIGHT

By United Press

Washington, March 19—The daylight saving bill which goes into effect at 2 a. m March 31, and which sets the clocks of the country one hour ahead was signed by President Wilson today thus making it a law.

PLANS FOR O. U. A. M. BUILDING UNDERWAY

John S. Chaplin the West Side architect is at work on the plans for the new building for Clearfield Council Council O. U. A. M. propose erecting on the site of their building destroyed by fire several months ago.

The new building which will be considerably larger than the old one will be 66x115 feet, built of tapestry brick, trimmed in concrete, two stories high.

The ground floor will contain store rooms with lodge rooms on the second floor.

The new building will be one of the handsomest in Clearfield when completed and work will be commenced on same at once.

TODAY'S REPORT FROM U. S. FRONT

By United Press
By Fred S. Ferguson

With the American Army in France March 18— Franco-American forces again raided German trenches in the Badonvillers region today penetrating 300 yards into the enemy lines at two points. They found the positions evacuated and were forced to return without prisoners. The raid was launched from an abandoned German trench. There was unusual heavy artillerying at other points held by the Americans today.

In the Soissons region on the Lady's Highway 6,000 German shells, mostly gas, were dropped on the Franco-American lines. French and New England gasers repiled to the German fire with bombs four times as heavy as those received.

In response to Secretory McAdoo's request, machine guns, flame throwers and trench knives captured on the Toul front will be sent to America for exhibition in the Third Liberty Loan campaign.

By United Press

London, March 19—English troops successfully raided three enemy positions last night, bringing back a number of prisoners, Field Marshal Haig reported today. Portugese troops continued a raid east of Neuve Chapelle taking prisoners and two machine guns. Three attempted enemy raids were repulsed with considerable losses inflicted on the raiders last night. Hostile artillery occurred in the Ypres sector.

Mrs. Samuel Dickson of the East End, who has been seriously ill, is slowly improving.

BAKER PLEASED WITH VISIT TO GEN. PERSHING

Encouraged By Witnessing Great Work Of Army In Preparation For Impending Struggle

AMERICAN HEARTS IN FRANCE

By W. S. Forrest

With Secretary of War Baker in France, March 17.—"My visit to France has brought me a great uplift in spirit," Secretary Baker declared today in talking to the staff officers of the staff college here.

"As a boy who dissects a watch in order to see the works I have been taking this army apart. While we are busy at home with our industrial preparedness and training of troops our hearts have been transplanted here in France."

Before motoring to the staff college which is located in an ancient city, Baker and General Pershing began at 7:30 a. m., an inspection of a vast warehouse area near the actual fighting line. Baker warmly lauded the work of the college and impressed on his audience the real seriousness of America's great war project.

24 MOSSBACKS IN OSCEOLA

The election for increase of debt held at Osceola Monday resulted in a vote of 233 to 24 in favor of a bond issue of $10,000 for the purpose of purchasing a triple combination motor driven fire engine and the installation of an electric fire alarm.

Osceola suffered three very serious fires during the last three months of 1917, due almost entirely to lack of efficient fire fighting apparatus.

Following the last fire the council purchased a supply of hose and contracted for a latest style fire engine contingent on the voters ratifying such contract at the polls at the special election called for that purpose. Monday's vote was very satisfying both to the council and fire department.

Cincinnati's most successful druggist is a woman who owns and manages a chain of downtown drug stores in the Queen City.

VIEW OF WORLD WAR HELD BY LATE REV. J. E. CURZON, RECEIVED AFTER HIS DEATH

We print herewith an extract from a letter received by John F. Leitzinger, on January 21st last. The letter with written by the late Rev. J. E. Curzon, a brother in law of Mr. Leitzinger. The letter was written Jan. 15th at Fort Smith, Arkansas, and received in Clearfield, January 21st just two days after Rev. Curzon's sudden death at Fort Smith:

The extract follows:

"My Pap dun kotched a wolf w'elp, an brung him home to me. 'Twas the pertest, cutest, little cuss I sca'sely ever see. But Ma, she did'ent like him an' made me chain him up; an' 'lowed she had no confidence in any wolfish pup. He was cunnin' as a bug's ear, an' grew like Johnson grass. Got tamer than a Collie, an' was full uv pep and sass. One night he slipped his collar an' killed our biggest shote; an' then he swum across the crick an chawed Bill Jones'es goat. Pap was a goin' to kill him, but I dun pled his cause; fur he looked so awful sad-like with his nose between his paws. It took a heep uv talkin', fur Pap was powerful mad; but I did'ent think the pore cuss knowd what he'd dun was bad. He was as good fur several days as as any wolf could be; we wus a pair uv komrads, that young wolf w'elp an' me: but when he heered his kin folks a howlin' on the hill, a devil seemed to get in him an' make him long to kill. Pap went down to Van Buren to spend the night from home; an' on that selfsame very night the wolf begun to roam. We heered an awful blattin' down to the old sheep fold; an' me an Sam, (my brother) made like as we wus bold; an' tole Ma, an our sister, to keep the door within, while we went out into the dark to learn what made the din. Did yo' evah hev' the cold chills fussin' with yo'r back bone? Did yo' evah heer an owl hoot when in the night alone? If yo' did, yo'll know the feelin' what came to me an Sam when we seen that cruel wolf w'elp a tarin' at a lamb [illegible] that we wus komrads, [illegible] mercy shown; made a [illegible] britches and bit [illegible]. An' then, he made a [illegible], (like a mallard on the w[illegible] Sammy had'ent had an axe, I [illegible] heered the angels sing. Don't talk to me uv wolf w'elps onless the're in a cage, where they kant git at human folks when the're inclined to rage. My wolf an me wus komrads, an' he played me fur a fool; fur he didn't hev' no honor, an' he would'ent play by rule. Him an' me, we made a treaty, or hed been shot by Dad; an' I wus fooled an' trusted him bekause he looked so sad: but never more will I trust one, (be it man, brute, beast or bird), what holds his needs er longin's more sacred then his word. Let wolves delight to snarl and bite, fur 'tis their nature to; but yo' ken bet yo'r lastest cent, thet I know what to do. Next time I make a treaty with a varment uv his kind, I'll make one thet I'm mighty shore is alwus goin' to bind. A shot gun or a steel trap, or a cage thet's stout the test, is the only kind uv treaty thet'll give me lastin' rest. An' so if yo'r inclined to take a wolf w'elp fur a pet; be certain thet yo've got him fast. Be SHORE yo' don't forget."

This is the kind of philosouhy of peace which the events of the great War have forced me to adopt. I am hoping and praying for a speedy peace but I want one which will last; for the world must not be called upon to stand such a waste of life and misery and honor, not to speak of the less valuable material things, in all the years of the future.

MASON'S DAILY WAR REVIEW

By J. W. T. Mason
Written for the United Press

New York, March 18.—Russia's acceptance of Germany's peace terms has been repudiated even before the signatures have been attached to the ineffective document.

The resignations of six commissaries from the revolutionary government in protest againt any agreement with German imperialism demonstrates that only a small clique under the domination of Nikolai Lenine is responsible for the unreasoned action of the Pan-Soviets at Moscow Von Hindenburg's diplomats are once more in a quandry. They cannot trust the peace they have made for fear of betrayal; and they dare not continue to treat Russia as an active enemy lest this provide the very impetus for a recovery of Russia's offensive powers.

There is every reason to believe that the delegates to the Pan-Soviet Congress were men without experience in public affairs, who were not informed authoritatively concerning the terms of the peace treaty they were accepting. They put their trust in Lenine, who, pracically alone, is responsible for the delivery of the paper pact to the German autocrats.

It is impossible to believe the Germans will even attempt to carry out all the provisions of the peace agreement at Russia's expense; while the war continues on the west front. The terms that press onerously upon the Russian people will probably be ignored for the time being. To attempt to exact them might too easily rouse the Russians to a new fury.

The Kaiser, in fact, wants a Russian peace agreement primarily for bargaining purposes with the western democracies when he is defeated on the west front. Now for the Russian revolutionists who no longer trust Lenine to wrest from the Hohenzollerns even this small comfort. The probabilities favor such a development. Russia is historically the land of surprises. The revolutionary spirit is too dominant there for any kind of agreement with the Hohenzollerns to endure.

FIVE LOAVES AND TWO SMALL FISHES

Out of the terrible crucible of war comes much fine gold, and no more profoundly spiritual thought has been brought forth than that of the British Prime Minister, on March 13:

"The people face big things, but get worried over small ones. There has been only one successful Food Controller in the history of the world—the One who made five loaves and two small fishes feed a multitude. I tell you what rationing means. It means that a nation in the furnace of war is becoming more of a brotherhood."

More than three years ago it was said in these columns that the spiritual influence of the war would have an enormous effect upon mankind, and that it would mean a revival of religious belief in its best and humbles application. It should hardly be necesary to say in a newspaper which frankly appeals to business men that such development is of the most profound business importance.

It was remarkable how the German taint had spread among our clergy of all denominations, except the Catholic and perhaps the Jew. Materialism the German substitute for the God we spiritually conceive, took the form of what was called "higher criticism." It reduced Christianity to a mere philosophy, inferior to many others of which the world has had experience. It denied the divinity of Christ, and it created a god for itself, which was about the sort of god which might be represented by Hegel or even the Kaiser himself plus omnipotence.

But we are coming back to the humbler view where we recognize ourselves as creatures and not as partners with the Creator. We are learning that death is a little thing in life, and that the length of life is of the smallest importance when compared with the way we live it. We are beginning to bear our burdens by sharing them. If the distribution is unequal we shall learn better as time goes on.

We are learning that when God in his judgment and infinite wisdom lays a burden upon our shoulders, he always places his hand beneath the burden to steady it. We may so live that we only feel and resent the burden. But the war can teach us we can so live that we only feel the Hand. —(Wall Street Journal.)

TOMORROW'S DUTY

Every man owes it to himself, his family and his country to take some part in the government of his country and at least exercise the right of voting which is guaranteed to him under our laws. In no other way can a man be an integral part of his government and the actual governing of his coutry. In no other way can he so surely exercise his right to have a say in what is done in that which affects his welfare and his happiness and yet there are thousands who are negligent of this opportunity to do good as they have the knowledge to see it.

In addition to voting at the general election The Progress believes that it is very essential that every man study the principles of the different political parties and decide for himself, assisted by whatever arguments there are presented, what principles of government are best for us in this particular time and in the near future which is indeed just around the corner from today. In the parties there is union and strength and unanimity of purpose and as this nation is governed on the principle that majority rules it behooves every man to make himself a part of that political party which appeals to him as representing the ideals and principles in which he believes.

Today and tomorrow is the time to enroll with one of the parties in order to have a choice in the selection of candidates at the Primary Election which is to be held on May 21st. Today and tomorrow the assessors are sitting at the various polling places of the county and the assessor in your district must enroll you in the party of your choice. This sitting is also for the purpose of enabling you to change your enrollment if you so desire.

The man who takes no part in the politics of his country is indifferent to the welfare of those around him and shirks a responsibility which he owes to his brother man.

45,000 BOYS ARE WANTED SOON

Pennylvania's job in the national drive to recruit farm labor which opens on March 18 is to enroll at least 45,000 boys and 90,000 men for work on Pennsylvania farms.

It is a big job and it is being handled in a big way. Considering the activities that have been set in motion to promote the work, it will be surprising if the total number of men and boys enrolled does not greatly exceed the allotment fixed as Pennsylvania's quota.

The recruiting is being conducted by the U. S. Public Service Reserve for Men and the U. S. Boys' Working Reserve in co-operation with the Pennsylvania Committee of Public Safety. Lieutenant Governor Frank B. McClain, chairman of the Pennsylvania Agricultural Labor Service Committee, is personally taking an active part and has issued proclamations appealing to men and boys to do their "bit" in the land army. Workers will be placed on farms through his Committee.

Two thousand mayors, burgesses and town councils have been requested to arrange for rallies on "Farm Labor Sunday," March 24. Ten thousand clergymen and 11,000 Sunday School superintendents have been urged to conduct these rallies in the churches and schools. The aid of nine thousand fraternity units, patriotic societies, clubs, labor unions and other organizations has been solicited. Two thousand public school superintendents and principals have been specially urged to participate, also 50 college presidents. Speakers to the number of 7000, including the 4-Minute Men of the Speakers' Bureau, are under call and the week of March 24 will be devoted exclusively to farm labor speaking by the official bureaus.

All newspaper editors, public officials, and prominent civilians thruout the state have also been urged to assist. The Government will sidetrack all other recruiting work and right of way will be given to the job of finding labor to back up the farmer.

GALLANT BRITISH OFFICER WEDS ESTHER CLEVELAND

Miss Esther Cleveland daughter of Former President Grover Cleveland, has become the bride of Captain W. S. D. Bosanquet of the Coldstream Guards. The marriage took place at Westminster Abbey.

Captain Bosanquet has won the Distinguished Service Order of England for gallant service at the front. Mrs. Captain Bosanquet has the distinction of being a "White House" baby.

Mrs. Emily R. Weisberg, an active suffragist, is one of the first women in New York City to be appointed a receiver by a Justice of the Supreme Court.

Mrs. A. H. Taylor, of Bowling Green, Ky., is the manager of a large and successful mail order business.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or $1.00 for extra large size, get a bottle of zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SCOUT TO BE PRESIDENT

I welcome any movement which will intensify a young man's attachment to his church and religion, says Dr. S. R. Gordon of Tulsa, Okla.

The boy scout movement only brings the boy in closer touch with the church. The government now wants men to go to the front and fight. It wants and needs good, clean, strong men.

At the close of this awful world conflict there will be greater need for good men than now. When this war is over, there will be confusion, dissatisfaction, unrest, anarchy, high taxes, high cost of living and demoralization. Sorrow, mourning and distress will prevail.

Under such conditions the nation will need strong, educated, religious men as leaders. And the boy scout movement is going to provide such leaders. The boy scouts are preparing themselves, not to fight, not to shed blood, but to be wise leaders, and to conduct the people out of the wilderness of greed supremacy and worldliness, into the Canaan of peace, prosperity and happiness.

Some boy scout is going to be the president of the United States. Some scouts are going to be governors. Some will be senators and others will occupy high official positions of trust and honor.

So we want the boys to stick to their school and their church and thereby fit themselves to be men who will be qualified to rule wisely under the most trying circumstances.

SCOUT PROGRAM IN WAR.

Prof. Norman E. Richardson of Boston university tells the Boy Scouts of America that the war in European nations has resulted in a rapid increase of juvenile delinquency. Information that has been carefully secured goes to show that this increase in 17 of the larger cities and towns of Great Britain during one year averaged 24 per cent. The causes of this unfortunate condition are in many instances similar to forces that have already begun to operate in America. It is imperative that the American people take time by the forelock in this matter by setting in motion immediately influences that will counteract a number of injurious forces which will play upon the lives of our boys during the coming months and possibly years.

A careful study of the causes of increased delinquency and of the suitability of the Boy Scout program to reduce the harm coming from these influences presents a powerful argument for the immediate enlistment of thousands of America's best citizens as scoutmasters.

NEWSBOYS TAKE UP SCOUTING.

Newsboys of Houston, Tex., many of whom are "good scouts" already, are going to align themselves with the Boy Scouts of America.

Some of them have been thinking of the proposition for some time, and after the purposes, plans and benefits of the work of the boy scouts had been outlined to them in detail by the local scout executive a large number of the boys enrolled for the work. The newsboys are enthusiastic over the opportunity to enter it.

The scout officials expressed the opinion that they have some excellent material to work upon, especially after they had seen the grit manifested by the boys in a number of boxing matches and wrestling bouts, which were put on for the entertainment of the guests.

SCOUTS CUT UP BIG TREES.

The attention of Herbert Hoover ought to be called to the work of boy scout Troop No. 25 of Des Moines. These scouts, under the direction of Scoutmaster M. H. Anderson, took three or four big trees which were cut down in that neighborhood, and cut them up into stove wood for needy families.

Saturday finds them hard at work with crosscut saws, buck saws and axes doing a neighborhood "good turn" and making the chips fly. They have cut about thirteen cords into stove lengths.

MANY MERIT BADGE SCOUTS.

The national court of honor of the Boy Scouts of America reports that last month there were 14 eagle badges issued and 27 life badges.

There were 23 star scout badges issued. There were issued 180 merit badges. For 1917 so far there have been issued 1,649 merit badges, as against 741 in 1916. The total number of boy scouts having received merit badges is now 9,537.

GOOD TURNS BY SCOUTS.

Drafted men who had failed to report were located by boy scouts in Brooklyn.

Scouts in Woodmere, N. Y., raised 400 barrels of potatoes, which were sold to the poorer class of the community at cost, the scouts supplying their labor free of charge.

Westchester county members of the American Red Cross were given a demonstration of stretchers and first-aid work by the boy scouts of Mt. Vernon, N. Y.

The National League for Woman's Service is arranging to give a great patriotic food show in New York next month.

Plow Repairs

Frost is out of the ground. You're going to do your utmost this year both in acreage and in making two spears of grain grow where one grew before.

Get your plows repaired for the spring drive. We have a very complete assortment of plow shares, breakers, moldboards, handles, chains and the like.

Price and terms reasonable. Inquire of T. N. Fulton on the premies or R. I. Fulton at the County National Bank. M19-tf-ch

IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and to Neutralize Irritating Acids

Kidney and Bladder weakness result from uric acid says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame causing a burning scalding sensation or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia water drink, which quickly relieves bladder trouble.

WANTED!

FIGHTING FOR PATRIOTISM IN WISCONSIN

FRANCIS E. McGOVERN IRVINE L. LENROOT

Former Governor Francis E. McGovern of Wisconsin will not be a candidate in the Republican primaries for United States Senator against Representative Irvine L. Lenroot. He has announced his withdrawal in order to consolidate the loyal American vote against the La Follette candidate.

PRESIDENT URGES WAR GARDENS AT HOME AND SCHOOL

The home and school garden proposition meets with the hearty approval of President Wilson. An effort is being made here to amalgamate all the gardening propositions in the city. The city, the schools, the committee on Public Safety and other organizations are working toward that end.

President Wilson has written Secretary of the Interior Lane expressing the hope that "every school will have a regiment in the Volunteer War Garden Army"—the army of school children that, it is hoped, may raise this year produce amounting to $500,000,000.

"Every boy and girl who really sees what the home garden may mean," writes the President, "will, I am sure, enter into the purpose with high spirits, because I am sure they would all like to feel that they are in fact fighting in rFance by joining the home garden army."

In his letter, which follows the President approves the design of Secretary Lane to arouse the school children of the United States to "as real and patriotic an effort as the building of ships or the firing of cannon."

"25 February, 1918.

"My dear Mr. Secretary:

"I sincerely hope that you may be successful through the Bureau of Education in arousing the interest of teachers and children in the schools of the United States in the cultivation of home gardens. Every boy and girl who really sees what the home garden may mean will, I am sure, enter into the purpose with high spirits, because I am sure, they would all like to feel that they are in fact fighting in France by joining the home garden army. They know that America has undertaken to send meat and flour and wheat and other foods for the support of the soldiers who are doing the fighting, for the men and women who are making the munitions, and for the boys and girls of western Europe, and that we must also feed ourselves while we are carrying on this war. The movement to establish gardens, therefore, and to have the children work in them is just as real and patriotic an effort as the building of ships or the firing of cannon. I hope that this spring every school will have a regiment in the Volunteer War Garden Army.

"Cordially and sincerely yours,

"(Signed) WOODROW WILSON"

It is Secretary Lanes idea that is being worked out through Commissioner Claxton, of the bureau of education, to have 5,000,000 boys and girls of the schools in every city, town and village in the country, captained by 40,000 teachers, produce as nearly as possible all of the vegetables, small fruits and eggs for their home consumption.

To the extent that each district is able to supply itself with these food products, the railways will be relieved of the burden of transporting them, and the allies of the United States in Europe and our own soldiers on the battlefront will get that much more of the food of which they are in need.

Coffee is clean if bought in the right place . . .

If coffee were white, you could see the dirt and dust on the peddler's product. Trade with your grocer—he keeps a clean store and sells clean coffee.

He sells Golden Sun Coffee in dust-proof packages. You will like it for its full weight, its freshness, its superb flavor. You'll find that it makes more cups to the pound—there's no dust or chaff in it. Try it today.

GOT TWO MORE DEER KILLERS

Harry Hummelsbaugh, who spent the past week at the Kennedy Park Game reserve on the mountains north of town, returned home last evening and informed us that two more dogs were killed near the game reserve Sunday last. This makes four dogs slain during the past week.

There are still some dogs running the mountains from time to time and plans are now working out to land every one of them.

In Multnomah county, Oregon, which includes the city of Portland, nearly 40,000 women voters have registered for the coming primary election.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

J. B. Garner has been housed in for several weeks suffering from sciatic rheumatism.

The Curwensville Fire Brick Co., with efficiency alone in view, are installing several new motors in their plant here. A car load of motors and electrical apparatus arrived recently.

Clyde Silknitter and family have moved to Bellwood where Mr. Silknitter will be employed in the machine shops.

Mrs. Mary Hallan who spent the winter with her daughter, Mrs. J. B. Garner, returned to her home in Philadelphia Sunday.

Cecil Hummel is on the sick list at his home on Irwin Hill.

Mr. and Mrs. Boyd Robismon have gone to housekeeping on Filbert street.

D. E. Reid and daughter Miss Edna of Glen Richey, were week end visitors with relatives in town.

Mrs. A. G. Ammerman is among the number reported on the sick list.

Miss Elsie Throne, daughter of Mr. and Mrs. F. W. Throne of Irvin Hill, who was operated upon for appendicitis at the Clearfield hospital Friday, is geting along as well as can be expected considering the operation.

Miss Maude Elder was the guest of Miss Lysle Cooper in Clearfield over Sunday.

The ladies of the Presbyterian Aid Society are making great preparation for the roast pork supper in the basement of the church Thursday evening.

Miss Eastman left yesterday for Baltimore to visit her sister and brother-in-law Capt. and Mrs. J. M. Craven. Later she will visit her nephew, Sergt. J. Russell Mullen at Camp Meade and her brother H. A. Eastman and family in Washington.

Mr. and Mrs. Irvin Toizer of Bloomington were Curwensville visitors with friends Saturday.

Attorney John J. Pentz, of DuBois, was a Monday caller at the home of Harris M. Hoover.

DODGERS BOWL GIANTS TONIGHT

In the bowling league the giants are leading, having lost only one game.

Tonight the Dodgers will bowl the Giant. Watch the pins fly when Smith makes a sloppy strike. Leffler is a good bowler but A. Wilson is better on a finish. P. Roseberry made the Curwensville team which is quite an honor (?). It is not necessary to say anything about the Dodgers, as this team is made up oaf good bowlers. Admission to this game is free.

CARD OF THANKS

Mrs. James M. Woolridge and family wish to express their heartfelt thanks and appreciation to all friends and neighbors who in any manner so kindly extended their sympathy and assistance during the illness and death of their beloved husband and father.

THE FAMILY.

The Progress is described by its readers as the paper that changes its dress every day

NOT SORRY NOW IT COSTS MORE

Does Not Regret his Eating is More Expensive Due to Tanlac

This convincing Tanlac story was told by C. J. Swires, of 1819 Eighth Avenue, Altoona a signal fitter.

"I have been a great sufferer from catarrh in an advanced stake," Mr. Swires began. 'I have used everything I ever heard of, I believe," he continued, "but nothing I used helped me one particle. There were mucous discharge from my nose that affected my throat, vioent coughing, offensive breath, impaired appetite, dizzy spells and, altogether I was in a nervous run-down condition, and contracted colds.

"I heard of the wonderful work of this new medicine Tanlac and I immediately got me sume of the medicine. I am certainly glad that I purchased the medicine and began taking it when I did, as it has done me a world of good. I have taken two bottles of Tanlac and am now on my third. This statement of mine is therefore not hasty, but is based on ampe proof. All the symptoms from which I have suffered have disappeared and I believe Tanlac has cured me. I am, however, going to keep on taking the medicine as I believe I will get better than I ever was in my life."

Tanlac is now sold here by Woodward & McPherson.

PUBLIC SALE

The personal property of the late James M. Woolridge of Bradford town, will be sold at public sale at auction at the farm formerly known as the John C. Stewart property, in the township of Bradford, Clearfield County, Penna., (2 miles out from Woodland) on Wednesday, March 27 1918 at one o'clock p. m. consisting of the following: One fresh cow and calf, two cows, three head young cattle, one mule, one horse 7 years old, harness, 1 spring wagon, 1 one-horse wagon, 1 hay rake, 1 mower, 1 buggy, 1 sleigh, 1 cultivator, 1 harrow, 2 plows, 1 hay fork, 1 hay knife, about 200 bushels oats, 40 bushels wheat, 75 bushels rye, 40 bushels buckwheat, 4 bushels seed corn, 100 bushels potatoes, baled hay, baled straw, and many other articles too numerous to mention. Terms strictly cash. Sarah Woolridge, Woodland, Pa. J. G. Maines, Auctioneer.

COURT NOTES

John C. Arnold, Esq. filed a petition in the Prothonotary's office this morning in which Mrs. Della M. Dodge asks for a divorce from her husband, Wilbur Dodge. The Dodge's were married June 23, 1907 and Mrs. Dodge has been compelled to dodge divers and sundry things fired in her direction by Dodge practically ever since it is inferred from the statement filed. The job became too strenuous and on January 15, 1918, she was compelled by his cruel and barbarous treatment to leave his home and the divorce suit follows.

Pentz & Pentz entered suit on behalf of Andrews Bros., of DuBois, against the Western Union Telegraph company in which it is sought to recover $150 amount of loss to plaintiffs through failure of the Telegraph company to properly handle a telegram ordering a shipment of onions on November 1, 1917.

RESIGNED AFTER TWELVE YEARS

E. M. Keith of Third street, after a service of almost twelve years as brakeman and conductor on the New York Central railroad, has tendered his resignation and retired from the service. He had recently been serving as a conductor in the local yards.

SEED CORN FOR SALE

WARM YOUR FEET WITH MUSTARINE
BIG BOX 25 CENTS

If your feet are cold this winter weather one application of Begy's Mustarine will keep them nice and warm for days. It's the surest and quickest pain killer ever devised; it will draw out the inflammation from your sore tired fee in one night—it stops the agony from chilblains and is the only thing to use on frosted feet. But that isn't all, it stops backache, headache, toothache, earache and neuralgia—many times in 5 minutes. It drives away the agony of rheumatism, and gout, and overnight ...cold on chest pleurisy, bronchitis and ...throat, and never blisters. Be sure you get Begy's Mustarine in the yellow box—it's the original non-blistering substitute for grandmother's mustard plaster and is made of true, yellow mustard and not cheap substitutes.

FINE FOR RHEUMATISM!

Musterole Loos... Up Those Stiff Joints—Drives Out Pain

You'll know why thousands use Musterole once you experience the glad r... it gives.

Get a jar at once from the neares... drug store. It is a clean, white ointment made with the oil of mustard. Bett... than a mustard plaster and does n... blister. Brings ease and comfort wh... it is being rubbed on!

Musterole is recommended by man... doctors and nurses. Have in stock ... of sheave wheels, frogs and turn... also 12 and 16 pound new rails. We also buy all kinds of scrap iron. Write or call by H. & C., CENTRAL FOUNDRY & CAR CO., Irvona, Pa.

CLIP THIS OUT MAY COME HANDY

Tells how to take soreness from a corn and lift it right out

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simpy apply a few drops of this on a tnder, aching corn and the soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

STEWART'S DRUG STORE

FARMER NEED NOT FEAR HANDICAPS

Federal Food Officers Assure Growers Fair Deal This Year.

PERISHABLES ARE NECESSARY

Essential as Nutriment and Under the Protection of Authorities in Washington.

Philadephia, March 19.—C. J. Tyson and M. T. Phillips, representatives of the farmers in the United States food administration for Pennsylvania, have issued a statement to the farmers of the state making an appeal for the increased production of fruits and vegetables.

Their statement follows:

Reports have been widely current that perishable products, such as fruits and vegetables, would be discriminated against in shipping during the coming season. We have referred these reports to the Food Administration of Washington and have received from that source emphatic denial of the truth of such statements.

G. Harold Powell, assistant to Herbert Hoover, the Federal Food Administrator, in an interview with Mr. Tyson, set forth the situation as it is. Mr. Powell is in charge of the perishable products division of the National Food Administration. He said:

"Apparently there is serious misunderstanding by the public of the attitude of the Food Administration towards the free consumption of perishable materials.

"Foods of the 'Perishable Products' group are essential to nutrition, and their continued production, distribution and consumption are vital, in view of National and International necessities. The Food Administration desires to emphasize these facts, and to assure all producers and handlers of milk products, poultry and eggs, fish, fruits, potatoes and vegetables that no restrictions have been placed on such food materials, or are liable to be.

"Not only are these foods of great use and value in supplying the ordinary basis of nutrition, but vary the diet and promote palatability of the foods used with them; most of them are succulent or supply necessary bulk in the nation, which aids digestion; and some serve as efficient and necessary regulators of bodily functions thus warding off ill health.

"There are many sections where perishable products can be grown to greater advantage than staple crops. Any movement which leads to substituting culture of one for the other, will be liable to cause economic loss. It would be unwise, therefore, to limit the areas devoted to any class of perishable crops.

"Instead of restricting the production, it is believed that there never was a time when the opportunity was greater, from the business standpoint, for the expansion and extension of the perishable food industry, as a whole, than at present.

"There is every hope that the railroads will soon be able to move all classes of freight freely and promptly. Even in times of congestion perishable food products have been placed in the first priority group, and there is no reason to expect any change in this policy."

TO EXPOSE SLACKER HOTELS

Heinz Issues Appeal and Warning Regarding Pledge Cards.

Philadelphia, March 19.—The Federal Food Administrator for Pennsylvania has sent out the following communication to all County Administrators:

The United States Food Administration at Washington is greatly disappointed over the showing we have made up to date in securing signed Pledge Cards from Hotels, Restaurants and Clubs. Out of 20,000 establishments we have received only 8000 cards. This is to be regretted and it is now up to us to make a more creditable showing in line with our duty.

It has been decided to start an extensive campaign that ends April 1st. By that date we have promised Washington to have a 100-per cent registration. Will you please, therefore, start immediately to get every Hotel, Restaurant and Club in your County that has not signed a pledge card to do so and send same to this office at the earliest possible date? Inasmuch as we are now asking the observance of only one MEATLESS DAY (which is a Beefless and Porkless Tuesday—mutton and lamb may be used at any time), two WHEATLESS DAYS—Monday and Wednesday, and a WHEATLESS MEAL EACH DAY, you should have no difficulty in getting the enthusiastic co-operation of every Hotel, Restaurant and Club that is not a plain slacker. You can tell Hotels and Restaurants that we expect to publish on April 1st, an Honor List containing the names of those who have signified their willingness to co-operate. No loyal or patriotic American should refuse your request and I know that you will make the showing for your county that we expect.

Dr. Mary Freeman holds the office of second vice-president of the Florida State agricultural commission.

Temperance Notes

(Conducted by the National Woman's Christian Temperance Union.)

THE ENEMY ON LAND.

Mr. J. S. Strachey, editor of the Spectator (London), once an advocate of the drink traffic, has since the beginning of the war made prohibition the policy of his paper. In a recent public address he told this story:

"A city, though its armies were victorious, was in dire straits for food. Strict search was made to see that nothing that could be used for food should be wasted, and lo, a great store of barley and sugar was found. And the general thanked God that they were saved. There was enough barley and sugar to enable them to hold out till the re-victualling that was sure to come in a few months. The barley, mixed with corn, would make excellent bread and the sugar would save the children.

"'Alas,' said the civil authorities, 'all this barley and sugar must be turned into beer; we dare not touch it.'

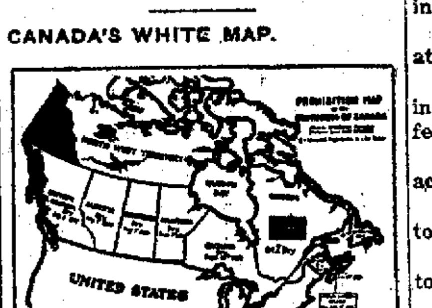

"The general, who was a simple soldier and did not understand politics, was angry. 'This is a town of sane people, not a lunatic asylum, nobody can be allowed to turn into beer what might be made into bread and so save the people.'

"But it was even so. The city fell and the conquerors drank the beer!"

Mr. Strachey hammered his point home with these words:

"The proper thing to do, the straight thing to do, the only honorable thing to do, is to stop the brewers and give the people bread. With famine facing the world, the government must stay the food destroyers on land as well as on sea, if we are to have victory."

CANADA'S WHITE MAP.

Provincial prohibition is now in operation in the provinces of Alberta, Manitoba, Nova Scotia, Ontario, Prince Edward Islands, Saskatchewan, New Brunswick and British Columbia. At the time the above map was made the province of Quebec was 84 per cent dry. Since then Missisquoi county and the city of Quebec have voted dry. A proposal by Yukon territory to petition the Dominion parliament for territorial prohibition was defeated by the narrow margin of three votes. In the remaining part of the Dominion of Canada, generally known as the Northwest territories, the sale of liquor is prohibited, and strong drink may only be imported on special permits, specifying the kind and quantity of liquor which they cover.

HOT WATER THE BEST LIVER AND BOWEL MEDICINE

Says Glass of hot water before breakfast washes poisons from system

Physicians the world over recommend the inside bath claiming this is of vastly more importance than outside cleanliness because the skin pores do not absorb impurities into the blood, causing ill health while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmels means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a rull. achink head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results botht in regard to health and appearance.

Gossip for Tonight's Tea Table

Mrs. J. A. Robison has returned from Philipsburg where she attended the funeral of Henry Nash who died while in the service of Uncle Sam.

James Porter has returned from a business trip to Harvey Del.

The Hospital Bridge Club will meet Wednesday afternoon at two o'clock at the home of Miss Edna Johnson on South Second street.

Mrs. Albert Wright Jr., and son Dick have returned from a few days' visit with friends in Grampian.

Mr. and Mrs. Alfred Braund of DuBois have moved to Clearfield and expect to make their home here. Mr. Braund has accepted a position at the Kurtz Tablet Factory.

Mrs. Harry B. Snyder is visiting her mother Mrs. Thomas Byron at Philipsburg.

Mrs. Anna Rey has returned from a few days' visit with Dr. and Mrs. W. B. Henderson at Philipsburg.

Russell Shaw, a member of the 58th Coast Artillery regimental band located at Ft. Ttotten, N. Y., is home on a furlough to visit his wife.

Hayes Wilson left today for Camp Hancock, Augusta, Ga., where he is a member of the 109th Machine Gun company after being home on furlough to visit his parents.

Mrs. Delma Bradford has returned from a visit with friends in Huntingdon W. Va., and Kentucky.

N. C. Tobias of New Millort, was in town on business today.

Samuel Swatsworth of McCartney, attended to business in town today.

Rev. W. W. Hartman left this morning for Williamsport to attend conference.

Patrick Hurley of Surveyor, transacted business in town today.

W. B. Potter of Karthaus, was in town attending to business today.

D. W. Hile of Curwensville attended to business in town today.

Mrs. Will Hipps and daughter Dorothy and mother Mrs. Newcomer, of Curwensville spent the day with Clearfield.

Mrs. L. C. Bloom of Curwensville, was shopping in our stores today.

Splendid Showing of The New Spring Silks and Dress Materials

An Exhibit That Will Be Viewed With Eager Interest By Those Planning Early Spring Clothes

Our silk and dress goods goods department is making an early bid for your patronage—and in a manner that will meet with your entire approval, for we have assembled only the most desirable weaves, colors and designs that are to be worn this season.

Here you will find fabrics that are being used in the ready-to-wear garments fashioned for Spring, so you may choose from the collection shown with confidence. The wise home dressmaker always buys early, for she then has ample time to plan her Spring clothes and to determine upon a style best appropriate for wearing with her other garments. The materials include among the most staple and favored fabrics, such *new* materials as new silk ginghams and a number of novelty wool materials in plaids and other effects.

New Foulard Silks at $2.00 a Yard

32 inches wide, white backgrounds with printed designs, blue and brown. Some show very large effects and others a combination of smaller designs as well as the popular coin sports. All the designs shown are new and original. The colorings are rich and desirable. You will find, too, several entirely new patterns in Standard fashion books showing the use of foulard silks for Spring and Summer dresses.

Imported Shantung

Shantung is going to be VERY much in vogue. Very firm weave; plain or in bright prints that are in keeping with Spring color schemes.

Taffetas. Thirty-six inches wide in all the new plain shades at $1.75 a yard.

Messalines at $1.50 and $1.75 a yard.

Georgette crepes, crepe-de-chine in a large selection of the new colors for Spring at $2.00 a yard.
